

DISABILITY INCOME ANALYSIS

The Disability Income Objective is based on a government study. The following are typical income objectives in order to permit a person(s) to continue their lifestyle after the onset of a disability.

Annual Gross Income	Percent of Gross Income Required
Up to \$44,000	80%
\$44,001 – \$49,000	76%
\$49,001 – \$54,000	72%
\$54,001 – \$60,000	68%
Over \$60,000	65%

Calculate your suggested objective below:

Your present annual income \$ _____

Income Objective x _____% = \$ _____

Subtract present long-term disability income insurance: – \$ _____

Your suggested need: \$ _____

*Contact RBI Financial, Inc. for further consultation
and put your disability insurance in place now – before you need it.*
